2010 TAKEFUJI CORPORATION CREDIT DERIVATIVES AUCTION SETTLEMENT TERMS

published on 20 October 2010

by the International Swaps and Derivatives Association, Inc.

Any capitalized term used but not defined in these 2010 Takefuji Corporation Credit Derivatives Auction Settlement Terms (these "**Credit Derivatives Auction Settlement Terms**") shall have the meaning given to the relevant capitalized term in (a) the 2003 ISDA Credit Derivatives Definitions (the "**2003 Definitions**") as supplemented by either (i) the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions published on March 12, 2009 (the "**March 2009 Supplement**") or (ii) the 2009 ISDA Credit Derivatives Determinations Committees, Auction Settlement and Restructuring Supplement to the 2003 ISDA Credit Derivatives Definitions published on July 14, 2009 (the "**July 2009 Supplement**"), as applicable (each as published by the International Swaps and Derivatives Association, Inc. ("**ISDA**")) (the 2003 Definitions, together with either the March 2009 Supplement or the July 2009 Supplement, as applicable, the "**Definitions**") or (b) the Credit Derivatives Determinations Committees Rules, as amended from time to time and as most recently published by ISDA on its Website as of the date hereof (the "**Rules**"), as applicable. In the event of any inconsistency between the Definitions and these Credit Derivatives Auction Settlement Terms, these Credit Derivatives Auction Settlement Terms shall govern.

For purposes of Article XII (Terms Relating to Auction Settlement) of the Definitions, ISDA has published these Credit Derivatives Auction Settlement Terms to enable parties to Auction Covered Transactions to settle such Auction Covered Transactions based upon an Auction Final Price determined according to an auction procedure on the terms set out below.

In circumstances where these Credit Derivatives Auction Settlement Terms are published following a Restructuring for the purpose of settling Credit Derivative Transactions for which Mod R or Mod Mod R, as applicable, is specified in the related Confirmations, and more than one Designated Range of Scheduled Termination Dates is specified in Schedule 1, these Credit Derivatives Auction Settlement Terms shall be construed as constituting two or more separate sets of Credit Derivatives Auction Settlement Terms, each referencing a different set of Permissible Deliverable Obligations, each specifying a different Designated Range of Scheduled Termination Dates and each relating to a separate set of Auction Covered Transactions, but each otherwise identical in all respects (except as otherwise specified). The procedures set forth in these Credit Derivatives Auction Settlement Terms shall be conducted by the Administrators separately for each set of Auction Covered Transactions (each such auction procedure for purposes of the relevant set of Credit Derivatives Auction Settlement Terms, an "**Auction**"), except that the procedures set forth in Sections 1 and 2 of these Credit Derivatives Auction Settlement Terms shall be conducted once and applied to each Auction.

1 **List of Participating Bidders**

On or before the later of (a) the date of publication of these Credit Derivatives Auction Settlement Terms and (b) the Business Day prior to the Originally Scheduled Auction Currency Fixing Date, the Administrators will publish one or more lists of the institutions that will act as participating bidders (each such institution, a "**Participating Bidder**"), which lists will consist of (i) each Global Dealer Voting Member, Global Dealer Consultative Member, Regional Dealer Voting Member and Regional Dealer Consultative Member that is a Convened DC Member of the relevant Convened DC (unless the Administrators are otherwise notified by any such Convened DC Member that such Convened DC Member does not intend to participate in the Auction, in which case such Convened DC Member will not be included on the list of Participating Bidders published by the Administrators), subject to Sections 1.7(d)(i) and 1.7(e) of the Rules and (ii) any other institution that submits to the DC Secretary a Participating Bidder Letter that (A) is effectively received by the DC Secretary no later than 5:00 p.m. Relevant City Time on the later of (I) the date that is five Business Days prior to the Originally Scheduled Auction Currency Fixing Date and (II) the earlier of (α) the Business Day following publication of these Credit Derivatives Auction Settlement Terms and (β) the Business Day prior to the Originally Scheduled Auction Currency Fixing Date and (B) is approved by the relevant Convened DC pursuant to Section 3.2(b)(ii) of the Rules. Following the initial publication of the list of Participating Bidders but prior to the Auction Date, the Administrators may publish revisions to such list to add further Participating Bidders or remove previously included Participating Bidders.

2 **Determining the Auction Currency Rate**

On the relevant Auction Currency Fixing Date, the Administrators will determine the rate of conversion (each, an "**Auction Currency Rate**") as between (i) the Relevant Currency and the currency of denomination of each Deliverable Obligation and (ii) in the case where a revolving credit arrangement (a "**Revolver**") is included on the Final List, the base currency of such Revolver and the currency of any drawings under such Revolver (each, a "**Relevant Pairing**") as follows:

- (a) **Currency Rate Source.** Where it is possible for the Administrators to determine the rate of conversion for a Relevant Pairing by reference to the Currency Rate Source on the relevant Auction Currency Fixing Date, the relevant rate of conversion shall be the Auction Currency Rate for such Relevant Pairing.
- (b) **Currency Rate Source Unavailable.** On each Business Day from, and including, the relevant Auction Currency Fixing Date to, and including, the earlier of (i) the Auction Final Price Determination Date and (ii) the Auction Cancellation Date, the Administrators will determine whether an Auction Currency Rate can be determined for any Relevant Pairing in accordance with Section 2(a) of these Credit Derivatives Auction Settlement Terms. If the Administrators are not able to determine an Auction Currency Rate for any Relevant Pairing in accordance with Section 2(a) of these Credit Derivatives Auction Settlement Terms on any such Business Day, the Administrators will determine the Auction Currency Rate for each such Relevant Pairing as follows:
 - (A) Between 1:45 p.m. and 2:00 p.m. Relevant City Time on any such Business Day (in the case where the Relevant Transaction Type is included in the Americas), or between 8:45 a.m. and 9:00 a.m. Relevant City Time on the Business Day following any such Business Day (in the case where the Relevant Transaction Type is included in any Region other than the Americas), the Administrators will seek to obtain from each Participating Bidder, and each Participating Bidder may submit, the mid-market rate of conversion, determined by each such Participating Bidder in a commercially reasonable manner, for each such Relevant Pairing.

- (B) If more than three such rates are obtained by the Administrators, the Auction Currency Rate will be the arithmetic mean of such rates, without regard to the rates having the highest and lowest values. If exactly three rates are obtained, the Auction Currency Rate will be the rate remaining after disregarding the rates having the highest and lowest values. For this purpose, if more than one rate has the same highest or lowest value, then one of such rates shall be disregarded. If fewer than three rates are obtained, it will be deemed that the Auction Currency Rate cannot be determined for such Relevant Pairing.
- (c) **Publication of Auction Currency Rate.** If the Administrators determine an Auction Currency Rate for each Relevant Pairing in accordance with either Section 2(a) or 2(b) of these Credit Derivatives Auction Settlement Terms, the Administrators will publish on their respective websites such Auction Currency Rates as soon as is reasonably practicable following determination thereof, but in no event later than 3:00 p.m. Relevant City Time (in the case where the Relevant Transaction Type is included in the Americas) or 10:00 a.m. Relevant City Time (in the case where the Relevant Transaction Type is included in any Region other than the Americas), in each case, on the Business Day prior to the Auction Date (or as soon as possible thereafter in the case where Section 13 of these Credit Derivatives Auction Settlement Terms apply).
- (d) **Inability to Determine Auction Currency Rate.** If the Administrators are unable to determine an Auction Currency Rate for each Relevant Pairing in accordance with Sections 2(a) and 2(b) of these Credit Derivatives Auction Settlement Terms, Section 13(b) of these Credit Derivatives Auction Settlement Terms shall apply.

3 **Customer Physical Settlement Requests**

Any customer that wishes to submit a Customer Physical Settlement Request to a Participating Bidder must submit a Customer Physical Settlement Request Letter to the relevant Participating Bidder no later than 5:00 p.m. Relevant City Time on the Business Day prior to the Auction Final Price Determination Date (provided that a Participating Bidder may elect, in its sole discretion, to accept a Customer Physical Settlement Request Letter at any later time prior to the commencement of the Initial Bidding Period). Each Customer Physical Settlement Request submitted to a Participating Bidder must be, to the best of the relevant customer's knowledge and belief, on the same side of the market as, and (when aggregated with all other Customer Physical Settlement Requests, if any, submitted by such customer and/or the Affiliates of such customer to one or more other Participating Bidders) not in excess of, such customer's Market Position. Each Participating Bidder must accept Customer Physical Settlement Requests from any customer with whom it or its Affiliates has a trading relationship, provided that such Customer Physical Settlement Request is no larger than, and is on the same side of the market as, such customer's Dealer-Specific Market Position with respect to the relevant Participating Bidder and/or the Affiliates of such Participating Bidder (in aggregate). A Participating Bidder may elect, in its sole discretion, to accept a Customer Physical Settlement Request that is larger than (or on the opposite side of the market as) the relevant customer's Dealer-Specific Market Position with respect to such Participating Bidder and/or the Affiliates of such Participating Bidder.

4 **Initial Market Submissions and Dealer Physical Settlement Requests**

During the Initial Bidding Period, each Participating Bidder shall submit to the Administrators an Initial Market Submission and may submit to the Administrators a Physical Settlement Request (which Physical Settlement Request will equal the aggregate of the relevant Participating Bidder's Dealer Physical Settlement Request and all valid Customer Physical Settlement Requests, if any, that the relevant Participating Bidder receives and accepts from its customers pursuant to Section 3 of these Credit Derivatives Auction Settlement Terms). Each Dealer Physical Settlement Request must be, to the

best of the relevant Participating Bidder's knowledge and belief, on the same side of the market as, and not in excess of, the Market Position of such Participating Bidder and/or the Affiliates of such Participating Bidder.

5 **Determining the Initial Market Midpoint**

If the Administrators receive no fewer than the Minimum Number of Valid Initial Market Submissions, the Administrators will determine the "**Initial Market Midpoint**" as follows:

- (a) **Matched Markets.** The Administrators will sort the Initial Market Bids and Initial Market Offers that comprise the Valid Initial Market Submissions separately, with the Initial Market Bids sorted in descending order and the Initial Market Offers sorted in ascending order. Each Initial Market Bid will then be matched with the corresponding Initial Market Offer (i.e., the highest Initial Market Bid will be matched with the lowest Initial Market Offer, the second highest Initial Market Bid will be matched with the second lowest Initial Market Offer, etc.) (each such matching of an Initial Market Bid with the corresponding Initial Market Offer, a "**Matched Market**"). For purposes of sorting the Initial Market Bids and Initial Market Offers, where two Initial Market Bids are equal, the one received first in time by the Administrators will be considered to be the lower of the two, and where two Initial Market Offers are equal, the one received first in time by the Administrators will be considered to be the higher of the two.
- (b) **Tradeable and Non-Tradeable Markets.** After sorting the Initial Market Bids and Initial Market Offers pursuant to Section 5(a) of these Credit Derivatives Auction Settlement Terms, the Administrators will determine which Matched Markets are Tradeable Markets by reference to whether the relevant Initial Market Bid is (i) equal to the corresponding Initial Market Offer, in which case such Matched Market constitutes a Tradeable Market that is a Touching Market, or (ii) higher than the corresponding Initial Market Offer, in which case such Matched Market constitutes a Tradeable Market that is a Crossing Market. Any Matched Market that is not a Tradeable Market is a Non-Tradeable Market.
- (c) **Best Half.** The Administrators will then calculate the mean of the Initial Market Bids and Initial Market Offers included in the Best Half of Non-Tradeable Markets. To identify the Best Half, the Administrators will list all Non-Tradeable Markets in an order based on the spread between the Initial Market Bid and the Initial Market Offer within each Non-Tradeable Market, from the smallest spread to the largest spread (i.e., the Non-Tradeable Market with the smallest spread between its Initial Market Bid and its Initial Market Offer will be at the top of the list, the Non-Tradeable Market with the second smallest spread between its Initial Market Bid and its Initial Market Offer will be next on the list, etc.). The Best Half of the Non-Tradeable Markets are those in the top half of the list of Non-Tradeable Markets. In the event that the number of Non-Tradeable Markets is an odd number, the Administrators will round up the number of Non-Tradeable Markets to include in the Best Half to the nearest whole number. The Administrators will then calculate the Initial Market Midpoint by finding the mean of all the Initial Market Bids and Initial Market Offers that form Non-Tradeable Markets included in the Best Half (with the results rounded to the nearest fraction of a percentage point that is the Relevant Pricing Increment).
- (d) **Example Calculation of Initial Market Midpoint.** The steps described in (a), (b) and (c) above are illustrated in the following example (which is not intended to reflect indicative prices for the Deliverable Obligations):

Step 1 – Sort Bids from highest to lowest and Offers from lowest to highest.

Contributed		Sorted		
IM Bids	IM Offers	IM Bids	IM Offers	
39.500%	41.000%	45.000%	34.000%	Tradeable Markets
40.000%	42.000%	41.000%	39.500%	
41.000%	43.000%	41.000%	40.000%	Best Half
45.000%	47.000%	40.000%	41.000%	
32.000%	34.000%	39.500%	42.000%	
38.750%	40.000%	38.750%	42.750%	
38.000%	39.500%	38.000%	43.000%	Non-Tradeable Markets
41.000%	42.750%	32.000%	47.000%	

Step 2 – Ignore all Tradeable Markets.

Step 3 – The Initial Market Midpoint is the mean of the Best Half of the Non-Tradeable Markets. If there is an odd number of Non-Tradeable Markets, round up the number of Non-Tradeable Markets to include in the Best Half to the nearest whole number. In this example, the Relevant Pricing Increment is assumed to be one-eighth of one percentage point.

Best Half	
IM Bids	IM Offers
40.000%	41.000%
39.500%	42.000%
38.750%	42.750%

Initial Market Midpoint = Average (40, 41, 39.5, 42, 38.75, 42.75) = 40.667%, rounded to the nearest one-eighth of one percentage point. = 40.625%

6 Market Position Trades and determining the Open Interest

If an Initial Market Midpoint has been determined pursuant to Section 5 of these Credit Derivatives Auction Settlement Terms, the Administrators will match all Valid Physical Settlement Requests with one another in order to determine the Open Interest. If the sum of all Quotation Amounts stated in each Physical Settlement Sell Request is less than the sum of all Quotation Amounts stated in each Physical Settlement Buy Request, all Physical Settlement Sell Requests will be matched with Physical Settlement Buy Requests, subject to the Rounding Convention, or if the sum of all Quotation Amounts stated in each Physical Settlement Buy Request is less than the sum of all Quotation Amounts stated in each Physical Settlement Sell Request, all Physical Settlement Buy Requests will be matched with Physical Settlement Sell Requests, subject to the Rounding Convention (each such match, a "**Market Position Trade**"), and each such pair will form a trade at the Auction Final Price as described in Section 12 below.

7 Determining Adjustment Amounts

For each Tradeable Market, the Participating Bidder whose Initial Market Bid or Initial Market Offer forms part of such Tradeable Market will make a payment to ISDA (the "**Adjustment Amount**") on the third Business Day after the Auction Final Price Determination Date as follows:

- (a) **Procedure for Calculating Adjustment Amounts.** The Adjustment Amount with respect to a Tradeable Market will be an amount calculated by the Administrators equal to (i) the Initial Market Quotation Amount multiplied by (ii) either (A) if the Open Interest is an offer to sell Deliverable Obligations, the greater of (I) zero and (II) an amount equal to (α) the Initial Market Bid forming part of such Tradeable Market minus (β) the Initial Market Midpoint or (B) if the Open Interest is a bid to purchase Deliverable Obligations, the greater of (I) zero and (II) an amount equal to (α) the Initial Market Midpoint minus (β) the Initial Market Offer forming part of such Tradeable Market. Each Participating Bidder agrees that (1) if the Open Interest is an offer to sell Deliverable Obligations, the Participating Bidder whose Initial Market Bid formed part of such Tradeable Market will pay the Adjustment Amount to ISDA and (2) if the Open Interest is a bid to purchase Deliverable Obligations, the Participating Bidder whose Initial Market Offer formed part of such Tradeable Market will pay the Adjustment Amount to ISDA.

Any payments of Adjustment Amounts shall be used by ISDA to defray any costs related to any auction that ISDA has coordinated (including the Auction), or that ISDA will in the future coordinate, for purposes of settlement of Credit Derivative Transactions. To the extent that ISDA determines at any time that the aggregate of all such payments received by ISDA (and not previously applied by ISDA to defray auction-related costs) up to and including such time exceeds the costs (including future costs as determined by ISDA) of such auctions, ISDA may in its sole discretion distribute any such excess among all entities that have previously acted as participating bidders in any prior auction proportionately, based upon participation as a participating bidder in such prior auctions. Payments of Adjustment Amounts will not be conducted or effected by, or through, any Administrator.

- (b) **Example Calculation of Adjustment Amount.** The steps described in Section 7(a) of these Credit Derivatives Auction Settlement Terms are illustrated in the following example (which is not intended to reflect indicative prices for the Deliverable Obligations):

Step 1 – Consider only Tradeable Markets.

Tradeable Markets	
IM Bids	IM Offers
45.000%	34.000%
41.000%	39.500%
41.000%	40.000 %

Step 2 – Calculate the Adjustment Amount for each Tradeable Market by (i) if the Open Interest is (A) an offer to sell Deliverable Obligations, determining the greater of (I) zero and (II) an amount equal to (α) the Initial Market Bid forming part of such Tradeable Market minus (β) the Initial Market Midpoint or (B) a bid to purchase Deliverable Obligations, determining the greater of (I) zero and (II) an amount equal to (α) the Initial Market Midpoint minus (β) the Initial Market Offer forming part of such Tradeable Market and (ii) multiplying the resulting amount by the Initial Market Quotation Amount.

Example calculation of Adjustment Amount if the Open Interest is an offer to sell Deliverable Obligations:

IM Bids	IMM	Adjustment Amount (as a percentage of the Initial Market Quotation Amount)
45.000%	40.625%	4.375%
41.000%	40.625%	0.375%
41.000%	40.625%	0.375%

Example calculation of Adjustment Amount if the Open Interest is a bid to purchase Deliverable Obligations:

IMM	IM Offers	Adjustment Amount (as a percentage of the Initial Market Quotation Amount)
40.625%	34.000%	6.625%
40.625%	39.500%	1.125%
40.625%	40.000%	0.625%

8 Publication of Initial Bidding Information

At or prior to the Initial Bidding Information Publication Time, on any day on which the Initial Bidding Period has successfully concluded, each Administrator will publish on its website the following information:

- (a) the size and direction of the Open Interest;

- (b) the Initial Market Midpoint; and
- (c) the details of any Adjustment Amounts,

(such information with respect to such successfully concluded Initial Bidding Period, the "**Initial Bidding Information**"). In addition, if any Other Initial Bidding Period has successfully concluded on such day, each Administrator will, at the same time that it publishes the Initial Bidding Information, also publish on its website equivalent information with respect to such Other Initial Bidding Period(s).

If (i) for any reason, (A) the Initial Bidding Period lasts longer, or occurs later, than the Originally Scheduled Initial Bidding Period or (B) a relevant Other Initial Bidding Period lasts longer, or occurs later, than the related Other Originally Scheduled Initial Bidding Period, or (ii) as of the time on the relevant day at which the Administrators would otherwise publish the Initial Bidding Information, (A) a Materiality Event has been declared pursuant to Section 13(a) of these Credit Derivatives Auction Settlement Terms or (B) an event has occurred or exists that is considered by any two or more Participating Bidders to be a Potential Materiality Event and it remains to be determined whether such Potential Materiality Event will result in the declaration of a Materiality Event, the Administrators may delay the Subsequent Bidding Period until, and publish the Initial Bidding Information on their respective websites at, such time as they determine (in their sole and absolute discretion) in order to preserve the integrity of the Auction (except that in the case of the declaration of a Materiality Event under Section 8(ii)(A) of these Credit Derivatives Auction Settlement Terms, the Administrators shall refrain from publishing the Initial Bidding Information with respect to such Initial Bidding Period).

9 **If the Open Interest is Zero**

In the event that the Open Interest is zero, no Subsequent Bidding Period will be conducted by the Administrators, and the Initial Market Midpoint, published in accordance with Section 8 of these Credit Derivatives Auction Settlement Terms, will be the Auction Final Price.

10 **Customer Limit Order Submissions**

In the event that the Open Interest does not equal zero, a Subsequent Bidding Period will be conducted by the Administrators. Any Customer Limit Order Submission must be submitted to, and received by, the relevant Participating Bidder during the period from and including the time at which the Initial Bidding Information is published to and including the time at which the Subsequent Bidding Period concludes; provided that in the case where the Subsequent Bidding Period is extended by the Administrators (whether such Subsequent Bidding Period is the Originally Scheduled Subsequent Bidding Period or a postponed Subsequent Bidding Period), no Customer Limit Order Submission may be submitted to the relevant Participating Bidder after the time at which such Subsequent Bidding Period was originally scheduled to conclude. Each Customer Limit Order Submission submitted to a Participating Bidder must be on the opposite side of the market from the Open Interest and, to the best of the customer's knowledge and belief, (when aggregated with all other Customer Limit Order Submissions, if any, submitted by such customer to one or more Participating Bidders) not in excess of the size of the Open Interest. The Participating Bidder may, but is not obliged to, take into account in one or more of its Limit Order Submissions any Customer Limit Order Submission submitted to it in accordance with this Section 10 of these Credit Derivatives Auction Settlement Terms, provided that if a Participating Bidder, for any reason, decides not to accept a Customer Limit Order Submission from a customer, such Participating Bidder shall promptly notify such customer of such decision.

11 **Participating Bidder Limit Order Submissions and Unmatched Limit Orders**

During the Subsequent Bidding Period, each Participating Bidder may submit Limit Order Submissions that are on the opposite side of the market from the Open Interest. Any Initial Market Bid (if the Open

Interest is an offer to sell Deliverable Obligations) or Initial Market Offer (if the Open Interest is a bid to purchase Deliverable Obligations), as applicable, submitted during the Initial Bidding Period (regardless of whether such Initial Market Bid or Initial Market Offer, as applicable, forms part of a Tradeable Market) will, together with any Limit Bid (if the Open Interest is an offer to sell Deliverable Obligations) or Limit Offer (if the Open Interest is a bid to purchase Deliverable Obligations), as applicable, be considered an "**Unmatched Limit Order**", however any Initial Market Bid that forms part of a Tradeable Market and is higher than the Initial Market Midpoint and any Initial Market Offer that forms part of a Tradeable Market and is lower than the Initial Market Midpoint will, in each case, be deemed to be equal to the Initial Market Midpoint for purposes of serving as an Unmatched Limit Order. The sum of (a) the excess, if any, of (i) the aggregate Quotation Amount of a Participating Bidder's Valid Limit Order Submissions over (ii) the portion of such aggregate Quotation Amount attributable to any Customer Limit Order Submissions received by such Participating Bidder that are taken into account in such Participating Bidder's Valid Limit Order Submissions and (b) such Participating Bidder's Initial Market Bid or Initial Market Offer, as applicable, that is on the same side of the market as its Valid Limit Order Submissions must be, to the best of such Participating Bidder's knowledge and belief, not in excess of the size of the Open Interest. If the Open Interest is an offer to sell Deliverable Obligations, then any Limit Bid that would otherwise be at a price above the Initial Market Midpoint plus the Cap Amount shall be deemed to be at a price equal to the Initial Market Midpoint plus the Cap Amount. If the Open Interest is a bid to purchase Deliverable Obligations, then any Limit Offer that would otherwise be at a price below the Initial Market Midpoint minus the Cap Amount shall be deemed to be at a price equal to the Initial Market Midpoint minus the Cap Amount.

12 **Matching the Open Interest Against Unmatched Limit Orders and determining the Auction Final Price**

After the conclusion of the Subsequent Bidding Period, the Administrators will match the Open Interest against the corresponding Unmatched Limit Orders.

- (a) **Matching Offers or Bids.** If the Open Interest is a bid to purchase Deliverable Obligations, the Open Interest will be matched against the Unmatched Limit Orders that are Offers. If the Open Interest is an offer to sell Deliverable Obligations, the Open Interest will be matched against the Unmatched Limit Orders that are Bids.
- (b) **Filling or Not Filling the Open Interest.** The Open Interest will be matched against each applicable Unmatched Limit Order, beginning with the Unmatched Limit Order that is the lowest Offer or the highest Bid, as applicable, and moving to the next remaining lowest (in the case of Offers) or next remaining highest (in the case of Bids) until:
 - (i) the full amount of the Open Interest has been matched against Unmatched Limit Orders totalling the same size as the Open Interest; or
 - (ii) all of the Unmatched Limit Orders of the relevant direction (i.e. Offers, if the Open Interest is a bid to purchase Deliverable Obligations or Bids, if the Open Interest is an offer to sell Deliverable Obligations) have been matched to the Open Interest.
- (c) **Matched Limit Orders and Matched Limit Order Trades.** Each Unmatched Limit Order that is matched to the Open Interest under Section 12(b)(i) or 12(b)(ii) of these Credit Derivatives Auction Settlement Terms is a "**Matched Limit Order**", and each such match between a Matched Limit Order and a Valid Physical Settlement Request is a "**Matched Limit Order Trade**". If (i) the final matching of the Open Interest against the applicable Unmatched Limit Orders occurs pursuant to Section 12(b)(i) of these Credit Derivatives Auction Settlement Terms, (ii) there are multiple Unmatched Limit Orders stating the same price and (iii) each such Unmatched Limit Order stating the same price could be the final Unmatched Limit Order to be

matched to the Open Interest, then each such potentially final Unmatched Limit Order stating the same price will be filled Pro Rata against the remaining Open Interest, subject to the Rounding Convention.

- (d) **Auction Final Price when the Open Interest is Filled.** If the final matching of the Open Interest against the applicable Unmatched Limit Orders occurs pursuant to Section 12(b)(i) of these Credit Derivatives Auction Settlement Terms, the Auction Final Price will be the price associated with the Matched Limit Order that is the highest Offer or the lowest Bid, as applicable, provided that (i) if the Open Interest is a bid to purchase Deliverable Obligations and the Initial Market Midpoint exceeds the price associated with the highest Matched Limit Order by more than the Cap Amount, then the Auction Final Price will be the Initial Market Midpoint minus the Cap Amount and (ii) if the Open Interest is an offer to sell Deliverable Obligations and the price associated with the lowest Matched Limit Order exceeds the Initial Market Midpoint by more than the Cap Amount, then the Auction Final Price will be the Initial Market Midpoint plus the Cap Amount. If the Open Interest is zero, the Auction Final Price will be the Initial Market Midpoint.
- (e) **Auction Final Price when the Open Interest is Not Filled.** If the final matching of the Open Interest against the applicable Unmatched Limit Orders occurs pursuant to Section 12(b)(ii) of these Credit Derivatives Auction Settlement Terms, the Auction Final Price will be (i) if the Open Interest is a bid to purchase Deliverable Obligations, the greater of (A) 100 percent and (B) the highest Offer received or (ii) if the Open Interest is an offer to sell Deliverable Obligations, zero. In such case, notwithstanding Sections 6 or 12(b) of these Credit Derivatives Auction Settlement Terms, all Valid Physical Settlement Requests on the same side of the market as the Open Interest (e.g., bids to purchase or offers to sell) will be matched Pro Rata, subject to the Rounding Convention, against the Valid Limit Order Submissions and Valid Physical Settlement Requests on the opposite side of the market to form Market Position Trades or Matched Limit Order Trades, as applicable.
- (f) **100 Percent Cap to Auction Final Price.** In all cases, if the Auction Final Price determined pursuant to these Credit Derivatives Auction Settlement Terms is greater than 100 percent, then, for purposes of settling the Auction Covered Transactions only, the Auction Final Price will be deemed to be 100 percent.
- (g) **Deemed Bilateral Agreement between Participating Bidders.** Each Participating Bidder whose Valid Physical Settlement Request or Matched Limit Order, as applicable, forms part of either a Market Position Trade or a Matched Limit Order Trade will be deemed to have entered into a bilateral agreement on terms equivalent to the Representative Auction-Settled Transaction for which (i) the Floating Rate Payer Calculation Amount is equal to the Quotation Amount with respect to the relevant Market Position Trade or Matched Limit Order Trade, as applicable, and (ii) (A) Seller is the Participating Bidder whose Physical Settlement Buy Request forms part of such Market Position Trade or whose Physical Settlement Buy Request, Limit Bid or Initial Market Bid, as applicable, forms part of such Matched Limit Order Trade and (B) Buyer is the Participating Bidder whose Physical Settlement Sell Request forms part of such Market Position Trade or whose Physical Settlement Sell Request, Limit Offer or Initial Market Offer, as applicable, forms part of such Matched Limit Order Trade; provided that, (I) in the case of the Matched Limit Order Trades containing the highest Offer or the lowest Bid, as applicable, the Quotation Amount will, if necessary, be reduced to reflect the size of the remaining Open Interest, and (II) in the event that there are multiple Matched Limit Orders stating the highest Offer or lowest Bid, as applicable, then such Matched Limit Orders will be filled Pro Rata against the remaining Open Interest, subject to the Rounding Convention. Participating Bidders whose Valid Physical Settlement Request or Matched Limit Order, as applicable, forms part of a Market Position Trade or Matched Limit Order Trade will be matched with one another by the

Administrators in their sole and absolute discretion so as to minimize, to the extent reasonably practicable, first, the number of Representative Auction-Settled Transactions for which the Floating Rate Payer Calculation Amount will be either smaller than the Initial Market Quotation Amount or not an integral multiple of the RAST Notional Amount Increment and second, the number of Representative Auction-Settled Transactions to be entered into; provided that, prior to such matching, the Quotation Amounts with respect to Matched Limit Orders or Valid Physical Settlement Requests, as applicable, submitted by the same Participating Bidder will be matched with each other, to the extent possible. Transactions entered into by and between Participating Bidders pursuant to Market Position Trades or Matched Limit Order Trades will not be conducted or effected by, or through, any Administrator.

13 **Delayed Auction Provisions**

The Auction timing may be adjusted under the relevant following circumstances:

- (a) **Materiality Event Delayed Auction Date.** If at any time on or after the Business Day prior to the Auction Date but before the conclusion of the Subsequent Bidding Period on the Auction Final Price Determination Date, an event occurs or exists that is determined by any two or more Participating Bidders to be a Potential Materiality Event, then such Participating Bidders shall have a right to require the DC Secretary to call a vote of the Participating Bidders to determine whether such Potential Materiality Event is a Materiality Event, which vote will take place, if such Potential Materiality Event is identified prior to the commencement of the Initial Bidding Period, before the conclusion of such Initial Bidding Period, and otherwise before the conclusion of such Subsequent Bidding Period. If a simple majority of all the Participating Bidders votes that such Potential Materiality Event is a Materiality Event, then such Initial Bidding Period and, if applicable, such Subsequent Bidding Period will be deemed to have been cancelled, annulled or postponed, as applicable, and the auction procedure contemplated by these Credit Derivatives Auction Settlement Terms shall recommence as if the Auction had originally been scheduled to take place on the next Business Day, unless, prior to the commencement of the Initial Bidding Period on such next Business Day, the DC Secretary holds a vote of the Participating Bidders, and a simple majority of all the Participating Bidders votes that the news of the Materiality Event has not yet been sufficiently widely disseminated or another Materiality Event has occurred or exists, in which case the auction procedure contemplated by these Credit Derivatives Auction Settlement Terms shall recommence as if the Auction had originally been scheduled to take place on the following Business Day (i.e., the second Business Day after the later of the original vote establishing the occurrence of a Materiality Event and the Auction Date), or, if necessary, on each following Business Day thereafter, but in no event later than the fifth Business Day after the Auction Date (any such delayed date on which a new Initial Bidding Period actually occurs following a particular Materiality Event, a "**Materiality Event Delayed Auction Date**"). The Administrators will publish the results of any vote of the Participating Bidders with respect to the declaration of a Materiality Event (including the vote cast by each Participating Bidder participating in such vote) on their respective websites.

In the event of the occurrence of a Materiality Event Delayed Auction Date, (i) each previously submitted Customer Physical Settlement Request and Dealer Physical Settlement Request shall be deemed to be revoked and must be re-submitted pursuant to Section 3 or 4, as applicable, of these Credit Derivative Auction Settlement Terms as if the Auction had originally been scheduled to take place on the relevant Materiality Event Delayed Auction Date and (ii) the Auction Currency Fixing Date shall mean with respect to a Relevant Transaction Type included in (A) the Americas, the Business Day prior to the Materiality Event Delayed Auction Date and (B) any Region other than the Americas, two Business Days prior to the Materiality Event Delayed Auction Date, and the steps set forth in Section 2 of these Credit Derivatives Auction

In the event of the occurrence of a Currency Rate Delayed Auction Date, each previously submitted Customer Physical Settlement Request and Dealer Physical Settlement Request shall be deemed to be revoked and must be re-submitted pursuant to Section 3 or 4, as applicable, of these Credit Derivative Auction Settlement Terms as if the Auction had originally been scheduled to take place on the relevant Currency Rate Delayed Auction Date.
- (c) **Administratively Delayed Auction Date.** If the auction procedure described in these Credit Derivatives Auction Settlement Terms does not result in an Auction Final Price for any reason (including, but not limited to, the failure to receive the Minimum Number of Valid Initial Market Submissions) other than the reasons described in Sections 13(a) and 13(b) of these Credit Derivatives Auction Settlement Terms, the relevant steps will be repeated on the Auction Date with the auction procedure described in these Credit Derivatives Auction Settlement Terms recommencing at such time(s) specified by the Administrators. If an Auction Final Price cannot be determined on any such subsequent attempt(s) on the Auction Date itself for any reason other than the reasons described in Sections 13(a) and 13(b) of these Credit Derivatives Auction Settlement Terms, the relevant steps will be repeated according to a schedule to be determined by the Administrators on the Business Day following the Auction Date, and if necessary, the second Business Day following the Auction Date, but in no event later than the second Business Day following the Auction Date (any such delayed date on which a new Initial Bidding Period actually occurs, an "**Administratively Delayed Auction Date**").

In the event of the occurrence of an Administratively Delayed Auction Date, (i) each previously submitted Customer Physical Settlement Request and Dealer Physical Settlement Request shall be deemed to be revoked and must be re-submitted pursuant to Section 3 or 4, as applicable, of these Credit Derivative Auction Settlement Terms as if the Auction had originally been scheduled to take place on the relevant Administratively Delayed Auction Date and (ii) the Auction Currency Fixing Date shall mean with respect to a Relevant Transaction Type included in (A) the Americas, the Business Day prior to the Administratively Delayed Auction Date and (B) any Region other than the Americas, two Business Days prior to the Administratively Delayed Auction Date, and the steps set forth in Section 2 of these Credit Derivatives Auction Settlement Terms will be repeated with respect to each Relevant Pairing (regardless of whether an Auction Currency Rate was previously determined with respect to any Relevant Pairing) as of such newly designated Auction Currency Fixing Date.

If a Participating Bidder becomes aware that its Valid Physical Settlement Request (without regard to the Customer Physical Settlement Requests that formed a part of such Participating Bidder's Valid Physical Settlement Request) is on the opposite side of the market from, or is greater than, such Participating Bidder's Market Position, such Participating Bidder will immediately notify the Administrators and will submit a corrected Physical Settlement Request.

If the Administrators become aware of a corrected Valid Physical Settlement Request, if any, at least thirty minutes prior to the beginning of the Subsequent Bidding Period, the Administrators will determine the Open Interest based on the corrected Valid Physical Settlement Request and publish the corrected Initial Bidding Information no later than fifteen minutes prior to the beginning of the Subsequent Bidding Period. Otherwise, the Administrators will not recalculate the Open Interest or the Auction Final Price, all Auction Covered Transactions will settle according to the Auction Final Price published by the Administrators, and all Participating Bidders will be required to comply with the terms of the Market Position Trade or Matched Limit Order Trade, as applicable, if any, of which the relevant Valid Physical Settlement Request forms a part.

Within one Business Day of receipt of the Notice of Physical Settlement (or the NOPS Amendment Notice, as the case may be) or in the case of a Revised Designation, on the Revised Designation Date, (x) in the case of an Auction RAST, Seller thereunder may designate its customer under any Customer Sell RAST that is a Related RAST (or any designee of such customer under such Customer Sell RAST pursuant to (z) below), (y) in the case of a Customer Buy RAST, Seller thereunder may designate the party designated by Seller under the Auction RAST pursuant to (x) above or, if no such party is designated by Seller under the Auction RAST, may designate Seller under the Auction RAST and (z) in the case of a Customer Sell RAST, Seller thereunder may designate any third party a "**Seller Third Party designee**" (in each case, the "**Seller's designee**" and the Buyer's designee and the

Seller's designee, each a "**designee**") to take Delivery and otherwise perform its obligations to take Delivery of such Loan with respect to a Credit Derivative Transaction by delivery of a notice to Buyer under the Auction RAST (which may be by telephone and which shall be subject to the requirements regarding notices set forth in Section 1.10), which is copied to each party under each Related RAST and which confirms that Seller has designated Seller's designee to take Delivery. If the Notice of Physical Settlement (or NOPS Amendment Notice, as the case may be) is delivered by a Seller under an Auction RAST in accordance with Section 3.4, such Seller may designate Seller's designee in such Notice of Physical Settlement (or NOPS Amendment Notice, as the case may be) and, within one Business Day of receipt of the Notice of Physical Settlement (or NOPS Amendment Notice, as the case may be) or in the case of a Revised Designation, on the Revised Designation Date, a Buyer under an Auction RAST may designate Buyer's designee by delivery of a notice to Seller under the Auction RAST (which may be by telephone and which shall be subject to the requirement regarding notices set forth in Section 1.10) which is copied to each party under each Related RAST and which confirms that such Buyer has designated Buyer's designee to Deliver.

When making any such designation in accordance with the above, the party making the designation may identify the designee either by name or by reference to a unique identifier agreed upon between the two parties (a "**designee identifier**"), provided that in the case of Seller's designee (if any) sufficient details (such as details of a nominee or an account number) are provided so as to enable effective Delivery to be made. If a designee is identified by a designee identifier, then if Section 9.8 applies and the designee wishes to participate in the Quotation process, such designee must identify itself to each party under the Auction RAST and any Related RAST prior to the Valuation Date. If a designee which does not so identify itself would otherwise be determined to be the Relevant Buyer, then the relevant Credit Derivative Transaction shall be deemed to be a Loan Settled Transaction for the purposes of determining the Relevant Buyer only. For the avoidance of doubt, if a designee does not participate in the Quotation process, then the applicability of any Final Price determined by such process shall not be affected.

If, following any effective designation being made in accordance with this Section 9.2(c)(iv) under a Credit Derivative Transaction, for the party that has not made the designation (such party, the "**Non-Designating Party**") (1) it is or would be impossible or illegal for it to Deliver or take Delivery of, as the case may be, such Loan with respect to the Credit Derivative Transaction or (2) the act of it Delivering or taking Delivery of, as the case may be, such Loan with respect to the Credit Derivative Transaction would result in it breaching any obligations imposed under applicable laws or regulations binding on it or its documented internal compliance and regulatory policies, in each case, after the Non-Designating Party having used reasonable efforts (which may include the designation of a nominee pursuant to the paragraph immediately below) to avoid such impossibility, illegality or breach, as applicable, the Non-Designating Party may within two Business Days of such effective designation being made, by delivery of a notice (a "**Revocation Notice**") to the other party under the Credit Derivative Transaction (which may be by telephone and which shall be subject to the requirements regarding notices set forth in Section 1.10), which is copied to each party under each Related RAST (or in the case where a designee is identified by a designee identifier, by notice to the relevant Participating Bidder under the Auction RAST, which Participating Bidder will deliver such notice as soon as is reasonably

practicable to the designee in accordance with Section 1.10), confirm that it wishes such designation to be revoked.

Following any effective designation being made in accordance with this Section 9.2(c)(iv), the Non-Designating Party may designate a nominee to Deliver or take Delivery of, as the case may be, such Loan with respect to the Credit Derivative Transaction and otherwise perform its obligations to Deliver or take Delivery of, as the case may be, such Loan with respect to the Credit Derivative Transaction by delivery of a notice to the other party under the Credit Derivative Transaction (which may be by telephone and which shall be subject to the requirement regarding notices set forth in Section 1.10) which is copied to each party under each Related RAST (or in the case where a designee is identified by a designee identifier, by notice to the relevant Participating Bidder under the Auction RAST, which Participating Bidder will deliver such notice as soon as is reasonably practicable to the designee in accordance with Section 1.10), and which confirms that such party has designated a nominee to Deliver or take Delivery of, as the case may be, such Loan with respect to the Credit Derivative Transaction.

If a Revocation Notice is received by the relevant parties, any designation to which that Revocation Notice relates shall cease to have effect (except that for the purposes of the Definitions, "Related RAST" and "Auction RAST" shall retain the meanings given to such terms below) and, subject as provided below, Buyer and/or Seller, as relevant, shall each resume its obligations under the relevant Credit Derivative Transaction, provided that Buyer and/or Seller, as relevant, may make a further designation in accordance with the preceding paragraphs (a "**Revised Designation**") within one Business Day of receipt of the Revocation Notice or Buyer Failed Delivery Notice, as the case may be (such day, a "**Revised Designation Date**").

If a Revocation Notice is received by the relevant parties and a Revised Designation has not been made by the Revised Designation Date, Seller may notify Buyer, by delivery of a notice to Buyer (which may be given by telephone and shall be subject to the requirements regarding notices in Section 1.10), which is copied to each party under each Related RAST (or in the case where a designee is identified by a designee identifier, by notice to the relevant Participating Bidder under the Auction RAST, which Participating Bidder will deliver such notice as soon as is reasonably practicable to the designee in accordance with Section 1.10), that Seller will not take Delivery of such Loan and Cash Settlement pursuant to the Partial Cash Settlement Terms shall apply to the Credit Derivative Transaction (or the relevant portion thereof) (a "**Seller Failed Delivery Notice**"). If Seller effectively delivers a Seller Failed Delivery Notice to Buyer, Buyer shall not be required to Deliver and Seller shall not be required to take Delivery of such Loan with respect to the Credit Derivative Transaction.

If Buyer and/or Seller under an Auction RAST make a designation with respect to which no Revocation Notice is received, the Auction RAST and each Related RAST shall be a "**Designated Transaction**" and the designee shall assume the obligation to Deliver or take Delivery, as the case may be (although the obligation to pay the Physical Settlement Amount and the obligations of Buyer with respect to the Set-Off Representation under the Auction RAST and each Related RAST shall remain unchanged). Such designation shall relieve Buyer of the obligations of Buyer to Deliver and/or Seller of the obligations of Seller to take Delivery, as the case may be, provided that if Delivery does not occur before the day that is five Business Days after the Physical Settlement Date, any designation that has been made shall cease to have effect and Buyer and Seller shall each resume its obligations under the relevant Credit

Derivative Transaction, provided that Buyer shall not be required to Deliver and Seller shall not be required to take Delivery of such Loan with respect to the Credit Derivative Transaction, such Credit Derivative Transaction (or the relevant portion thereof) shall be deemed to be a Failed Loan CDS Transaction and Cash Settlement pursuant to the Partial Cash Settlement Terms shall apply to the Credit Derivative Transaction (or the relevant portion thereof).

For the avoidance of doubt, each of Buyer and Seller under the Auction RAST may designate more than one designee with respect to a portion of the Credit Derivative Transaction and the provisions above shall apply to each such designee *mutatis mutandis* with respect to the relevant portion of the Credit Derivative Transaction.

If and to the extent that there is no Auction RAST because the same Participating Bidder has entered into both a Customer Buy RAST and a Customer Sell RAST with respect to which the same Loan is specified as a Deliverable Obligation in the Notice of Physical Settlement (or NOPS Amendment Notice, as the case may be), the provisions above shall apply *mutatis mutandis* as though such Participating Bidder were both a Buyer and a Seller under the Auction RAST, Seller under the Customer Buy RAST and Buyer under the Customer Sell RAST, which in each case shall be a Related RAST.

If and to the extent that a Credit Derivative Transaction is a Designated Transaction, if Buyer determines in its sole and absolute discretion that, having used reasonable efforts, Buyer is unable to Deliver to Seller's designee (if any), and/or reasonably believes that Buyer will be unable to Deliver to Seller's designee (if any) on or prior to the date that is five Business Days after the Physical Settlement Date, Buyer may instead notify Seller of such determination by delivery of a notice to Seller (a "**Buyer Failed Delivery Notice**"), which may be by telephone and which shall be subject to the requirements regarding notices in Section 1.10, which is copied to each party under each Related RAST (or in the case where a designee is identified by a designee identifier, by notice to the relevant Participating Bidder under the Auction RAST, which Participating Bidder will deliver such notice as soon as is reasonably practicable to the designee in accordance with Section 1.10), and unless Seller makes a Revised Designation on or prior to the Revised Designation Date, Buyer and/or Seller, as relevant, shall, except as provided below, each resume its obligations under the relevant Credit Derivative Transaction as if no such designation has occurred. Following receipt of a Buyer Failed Delivery Notice, Seller may deliver a Seller Failed Delivery Notice specifying that Seller will not take Delivery of such Loan and Cash Settlement pursuant to the Partial Cash Settlement Terms shall apply to the Credit Derivative Transaction (or the relevant portion thereof). If Seller effectively delivers a Seller Failed Delivery Notice to Buyer, Buyer shall not be required to Deliver and Seller shall not be required to take Delivery of such Loan with respect to the Credit Derivative Transaction.

If effective Delivery is made pursuant to a Credit Derivative Transaction in accordance with its terms, such Credit Derivative Transaction (or the relevant portion thereof) shall be deemed to be a "**Loan Settled Transaction**".

Notwithstanding the above, with respect to any Deliverable Obligation, either party (the "**designator**") may designate any of its Affiliates (the "**designee**") to Deliver or take Delivery, as the case may be, and otherwise to perform such party's obligations to Deliver or take Delivery, as the case may be, in respect of a Credit Derivative Transaction and the designee may assume such obligations, provided that in the case where it is impossible or illegal for the designator to Deliver or take Delivery in respect of a Credit Derivative Transaction, the designator may designate any third party to

whom the non-designating party consents and for whom it is not impossible or illegal to Deliver or accept Delivery, provided that the non-designating party will not unreasonably withhold such consent and provided further that such consent will be deemed given in the case where the relevant designee is a Participating Bidder for whom it is not impossible or illegal to Deliver or accept Delivery of the relevant Deliverable Obligations. Such designation shall not relieve the designator of any of its obligations under such Credit Derivative Transaction. If the designee has performed the obligations of the designator under such Credit Derivative Transaction, then the designator shall be discharged of its obligations to the other party to the extent of such performance. If, as a result of such designation, (A) it would be illegal due to any applicable law or regulation for the designee to so Deliver or take Delivery, the designator shall not be permitted to designate such designee to Deliver or to take Delivery or (B) such Delivery would give rise to any Tax or any loss or cost to the non-designating party, then the designator shall not be permitted to designate such designee to Deliver or to take Delivery unless the non-designating party has received an indemnity acceptable to it from the designating party with respect to such Tax, loss or cost."

- (xv) Section 9.3 of the Definitions is hereby amended by:
- (A) being renamed "Partial Cash Settlement of a Deliverable Obligation Due to Impossibility or Illegality; Partial Cash Settlement of a Deliverable Obligation which is a Loan Due to no Delivery";
 - (B) inserting "(i) Subject to (ii) and (iii) below," at the beginning thereof; and
 - (C) inserting the following at the end thereof:
 - "(ii) Subject to (iii) below, if and to the extent that a Deliverable Obligation specified in the Notice of Physical Settlement (or NOPS Amendment Notice, as the case may be) is a Loan and if and to the extent the Credit Derivative Transaction is not a Loan Settled Transaction, the relevant portion of such Credit Derivative Transaction shall, on the day that is five Business Days after the Physical Settlement Date, be a "**Failed Loan CDS Transaction**" and Cash Settlement pursuant to the Partial Cash Settlement Terms shall be deemed to apply to the relevant portion of the Credit Derivative Transaction with respect to such Deliverable Obligation that is a Loan and that has not been Delivered and such Deliverable Obligation shall be deemed to be an 'Undeliverable Obligation'; and
 - (iii) If Seller effectively delivers a Seller Failed Delivery Notice to Buyer under this Credit Derivative Transaction or a Related RAST, the relevant portion of this Credit Derivative Transaction shall be deemed to be a Failed Loan CDS Transaction and Cash Settlement pursuant to the Partial Cash Settlement Terms shall be deemed to apply to the relevant portion of the Credit Derivative Transaction with respect to such Deliverable Obligation that is a Loan and that has not been Delivered and such Deliverable Obligation shall be deemed to be an 'Undeliverable Obligation'. Following Seller effectively delivering a Seller Failed Delivery Notice to Buyer under this Credit Derivative Transaction or a Related RAST, for purposes of this Credit Derivative Transaction, the Physical Settlement Date shall be deemed to be the

date that is three Business Days prior to the date on which the Seller Failed Delivery Notice was effectively delivered."

(xvi) Section 9.8(a) of the Definitions is hereby replaced in its entirety with the following:

"(a) "Cash Settlement Amount" is deemed to be, for each Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation or Unassignable Obligation, the aggregate of (A) the Outstanding Amount, Due and Payable Amount or in each case, the equivalent Currency Amount, as applicable, of each Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation or Unassignable Obligation multiplied by (B) the Reference Price minus the Final Price determined in accordance with the specified Valuation Method with respect to such Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation or Unassignable Obligation."

(xvii) Section 9.8(c) of the Definitions is hereby amended by deleting the words "and 'Reference Price' is deemed to be one hundred per cent".

(xviii) Section 9.8(d) of the Definitions is hereby amended by inserting the following at the beginning thereof:

"If the Credit Derivative Transaction is a Failed Loan CDS Transaction, "Valuation Date" is deemed to be the day that is five Business Days after the Physical Settlement Date and otherwise,"

(xix) Section 9.8(e) of the Definitions is hereby amended by inserting the following at the beginning thereof:

"If the Credit Derivative Transaction is a Failed Loan CDS Transaction, "Valuation Method" is deemed to be Highest, and otherwise,"

(xx) Section 9.8(g) of the Definitions is hereby amended by deleting the words "outstanding principal balance" and replacing them with the words "Outstanding Amount".

(xxi) Section 9.8(k) of the Definitions is hereby amended by inserting the following at the beginning thereof:

"If the Credit Derivative Transaction is a Failed Loan CDS Transaction, then "Quotation" means each Full Quotation obtained and expressed as a percentage with respect to a Valuation Date in the manner that follows:

(i) In respect of (a) an Auction RAST and each Related RAST, (A) Buyer under the Customer Buy RAST (if any), (B) if and to the extent that such Customer Buy RAST is a Loan Settled Transaction or if there is no Customer Buy RAST, Buyer under the Auction RAST or (C) if and to the extent that such Auction RAST is also a Loan Settled Transaction, Buyer under the Customer Sell RAST (if any) or (b) otherwise, Buyer (in each case, such Buyer, the "**Relevant Buyer**") shall attempt to obtain Full Quotations (provided that for the purposes of this Section 9.8(k) only, a Full Quotation shall be a quotation for an amount equal to the higher of the Quotation Amount and the relevant minimum transfer amount, if any, applicable pursuant to the terms of the Loan on the Valuation Date) with respect to each Valuation Date from (I) five or more Dealers which must, at a minimum, include each Seller under a Related RAST or the Auction

RAST (if any) which, in each case, is not a Loan Settled Transaction provided that in the case of a Seller under a Customer Sell RAST which is a Related RAST, such Seller may designate another party to participate in the quotation process as a Dealer in its place (and for these purposes only, each such entity shall be deemed to be a Dealer for the purposes of Section 7.15) and (II) any other additional person from whom the Relevant Buyer wishes to obtain Quotations (and for these purposes only, each such entity shall be deemed to be a Dealer for the purposes of Section 7.15). In the case of an Auction RAST and each Related RAST, the Final Price shall not be determined until (i) the Relevant Buyer has attempted to obtain a Full Quotation from (A) Seller under the Customer Sell RAST (if any) or its designee for these purposes, (B) if and to the extent that such Customer Sell RAST is a Loan Settled Transaction or if there is no Customer Sell RAST, Seller under the Auction RAST or (C) if and to the extent that such Auction RAST is also a Loan Settled Transaction, Seller under the Customer Buy RAST (if any) (such Seller, the "**Relevant Seller**") provided that at the time at which the Relevant Buyer attempts to obtain such Full Quotation, it shall inform the Relevant Seller of the highest Full Quotation obtained prior thereto and (ii) the Relevant Seller has declined to provide a higher Full Quotation than the current highest Full Quotation.

Except as provided immediately below, if the Relevant Buyer is unable to obtain one or more such Full Quotations on the same Business Day within five Business Days of a Valuation Date, then the Alternative Procedures Relating to Loans not Delivered shall apply as though such fifth Business Day is the Alternative Procedure Start Date. With respect to a Customer Buy RAST, if such Customer Buy RAST is, or is deemed to be, a Failed Loan CDS Transaction due to the delivery of a Seller Failed Delivery Notice following the delivery of a Revocation Notice and the Relevant Buyer is unable to obtain one or more Full Quotations on the same Business Day within five Business Days of a Valuation Date, the Relevant Buyer shall obtain a Full Quotation on the fifth Business Day following the Valuation Date from Seller under the Customer Buy RAST (who shall be required to provide a Quotation, which may be zero). If the Relevant Buyer does not enter into an arms-length (without taking into account any other transaction or arrangement), binding contract to sell the relevant amount of such Deliverable Obligations, utilising the firm Quotation from Seller under the Customer Buy RAST, then the Alternative Procedures Relating to Loans not Delivered shall apply as though such fifth Business Day is the Alternative Procedure Start Date. For the avoidance of doubt, if the Relevant Buyer is able to obtain one or more such Full Quotations on the same Business Day within five Business Days of a Valuation Date, the Final Price determined in accordance with the Valuation Method (and the provisions of the following paragraphs) shall apply to the Auction RAST and each Related RAST, in each case, to the extent that such Credit Derivative Transaction is not a Loan Settled Transaction.

For the purposes hereof, in addition to the requirements of Section 7.10, each firm Quotation shall:

- (A) be for a transaction with the Relevant Buyer in which, the Relevant Buyer agrees to Deliver the Deliverable Obligations that are Loans to the Dealer submitting the firm quotation (or, if applicable, Seller under the Customer Buy RAST) (the "**Quoting Dealer**"), which transaction shall be governed by documentation that is consistent with market

practice applicable to the sale and purchase of such Deliverable Obligations on the Valuation Date (which may be determined by the relevant Convened DC), including without limitation a representation that the Quoting Dealer has completed all "know your customer" or similar requirements under all applicable laws, regulations and internal compliance procedures relating to a transaction with the Relevant Buyer and on the Reference Entity;

- (B) be capable of acceptance by the Relevant Buyer and be open for acceptance to the relevant party for at least 30 minutes; and
- (C) be obtained on the basis that if the Relevant Buyer agrees to Deliver the Deliverable Obligations to such Quoting Dealer on the terms set forth herein, such Quoting Dealer agrees to pay the settlement amount (calculated and payable for this purpose in accordance with the relevant market standard documentation and based on the price so quoted) that would be payable for such Deliverable Obligations to the Relevant Buyer.

Furthermore, any firm Quotation which would otherwise constitute a Full Quotation (including, if applicable, any Quotation from Seller under the Customer Buy RAST) shall be deemed not to have been obtained unless the Relevant Buyer has entered into an arms-length (without taking into account any other transaction or arrangement), binding contract to sell the relevant amount of such Deliverable Obligations, utilising a firm Quotation from a Quoting Dealer (which it may do in its sole and absolute discretion using any firm Quotation from any Quoting Dealer, which for the avoidance of doubt is not required to be the Quotation used in connection with the calculation of the Final Price); and

(ii) Otherwise,"

- (xxii) Section 9.9 of the Definitions is hereby amended by deleting the second sentence of the penultimate paragraph thereof and replacing it with the following:

"On the third Business Day following such notice, Buyer will be deemed to have Delivered an outstanding principal balance of the Deliverable Obligations specified in the Notice of Physical Settlement (or NOPS Amendment Notice, as applicable) for which a Buy-in Price was determined, and an amount equal to the product of (A) the outstanding principal balance of the Deliverable Obligations specified in the Notice of Physical Settlement (or NOPS Amendment Notice, as applicable) and (B) in the case where the Buy-in Price is equal to or greater than the Auction Final Price, the excess, if any, of the Buy-in Price over the Auction Final Price (expressed as a positive amount) and otherwise the excess of the Auction Final Price over the Buy-in Price (expressed as a negative amount) plus (C) any reasonable brokerage costs incurred by Seller in connection with any purchases by it of the Relevant Bonds as part of the buy-in, if positive, will be payable by Buyer to Seller or, if negative, the absolute value thereof will be payable by Seller to Buyer."

- (xxiii) Section 9.10 of the Definitions is hereby amended by:

- (A) deleting the words "If Buyer has not Delivered any Deliverable Obligations specified in the Notice of Physical Settlement that are Loans on or prior to the

date that is five Business Days after the Physical Settlement Date" and replacing it with the following:

"In the case of a Failed Loan CDS Transaction, if no Final Price has been determined pursuant to Section 9.8 on or before the tenth Business Day following the Physical Settlement Date";

- (B) inserting the word "or" immediately before "(iv)" on the ninth line thereof; and
 - (C) deleting the words from "or (v)" to "(in which case Section 9.3 shall apply)" inclusive.
- (xxiv) Section 9.10(a) of the Definitions is hereby amended by adding the following at the beginning thereof: "Section 9.10(a) will not be applicable if Seller delivers a notice (in accordance with Section 3.4) that is deemed to constitute delivery of a Notice of Physical Settlement instead of Buyer delivering a Notice of Physical Settlement."
- (xxv) Section 9.10(b) of the Definitions is hereby amended by:
- (A) deleting "fifteenth" and replacing it with "tenth";
 - (B) deleting the following from the thirteenth line thereof: "at a price (expressed as a percentage) less than the Reference Price"; and
 - (C) inserting the words at the end thereof:

"For the avoidance of doubt, Section 9.10(a) shall continue to apply during this period."
- (xxvi) The 60 Business Day Cap on Settlement shall not be applicable with respect to any Relevant Transaction Type for which it would otherwise be applicable.
