**Notes to the Final List:**

In respect of Deliverable Obligation Nos. 2, 3 and 8, the EMEA DC refers to its meeting statement of 25 July 2022. Only Bonds that have previously been transferred into Euroclear and that are currently available for transfer within Euroclear have been included on this Final List of Deliverable Obligations. Any Bonds cleared solely within the NSD and not already cleared within Euroclear are excluded from this Final List. This is notwithstanding that such Bonds have the same ISIN. Accordingly, where an Eligible Market Participant is holding Bonds other than directly within its own Euroclear account (for example, through a custodian or subcustodian), then such Bonds must ultimately be held within an account at Euroclear further up the chain of intermediation in order to be included on this Final List. The EMEA DC understands that Deliverable Obligation Nos. 2, 3 and 8 are not cleared within Clearstream.

In respect of Bonds which are held in Clearstream and which have US ISINs, such Bonds will be eligible for inclusion on the Final List only to the extent the restrictions on transfer have been lifted (see here for the restrictions: <https://www.clearstream.com/clearstream-en/products-and-services/settlement/a22074-3101256>). So long as settlement of Bonds with US ISINs are blocked within Clearstream, such Bonds held within Clearstream are excluded from the list.
